FOREWORD

The *"2010 Statistical Information for Municipalities in the Province of Manitoba"* provides highlights and statistical information compiled from the 2010 consolidated audited financial statements of Manitoba's municipalities. A total of 15 municipalities did not submit their statements by the time of publication and are therefore not included. These municipalities are listed on the following page.

2010 is the second year of Public Sector Accounting Board (PSAB) financial reporting standards. As a result, information in this publication is comparable to the 2009 publication. The statements are consolidated for the municipality and its owned or controlled organizations, providing a comprehensive picture of the municipality's financial position.

The Executive Summary highlights key municipal information including a comparison of 2001 and 2006 Census information to illustrate population changes. Expenditures on services, as a percent of total expenditures and per capita, and the composition of tangible capital assets are also highlighted.

The Financial Statistics section groups municipalities by type and population size to facilitate comparisons between similar municipalities. A detailed breakdown of consolidated revenues, expenditures, utilities operations, and other data such as taxable assessment, capital assets, and trust and reserve funds is provided.

For those municipalities that submitted their financial statements, and on a consolidated basis:

- Municipalities reported $7.1 billion in total in reserve fund balances and accumulated surplus.
- 86% of municipalities reported an annual surplus, averaging approximately $1.0 million, excluding Winnipeg.
- Municipalities reported net financial assets in total of $174.6 million, in excess of their outstanding debt ($1.2 billion).
- Debt charges as a percentage of revenue were 2.7% overall.

Trends in municipal expenditures, on an unconsolidated basis, include:

- 73% (129) of municipalities spend more than 20% of their budget on local government administration. Of these municipalities, 78 had populations less than 1,000.
- Municipalities with populations of 1,000 to 5,000 spend the most on transportation services at 43% of total expenses, followed by general government administration at 21%.
- Municipalities with populations over 5,000 (excluding Winnipeg) spend the most on transportation services at 30% of total expenses, followed by protective services at 26%.

Municipalities spent over $699 million on capital projects including $408 million on projects such as water and sewer, and roads, streets and bridges. The total value of municipalities' net tangible capital assets as at December 31, 2010 is $6.38 billion.

"2010 Statistical Information for Municipalities in the Province of Manitoba" provides municipalities with information to support program review and serves as an important reference for municipal officials exploring opportunities to enhance effectiveness and efficiency. It is also a useful resource for those interested in better understanding the finances of Manitoba local governments.

AVANT-PROPOS

Le document *2010 – Information statistique – Municipalités de la province du Manitoba* contient des points saillants et de l'information statistique compilée à partir des états financiers consolidés et vérifiés des municipalités du Manitoba pour l'exercice 2010. Quinze municipalités n'avaient pas soumis leurs états financiers au moment de la publication du présent document et en sont donc exclues. La liste de ces municipalités figure à la page suivante.

2010 est la deuxième année où les états financiers des municipalités ont été préparés selon les normes d'information financière du Conseil sur la comptabilité dans le secteur public. Par conséquent, l'information contenue dans le présent document peut être comparée à celle de la publication de 2009. Les états financiers sont consolidés pour inclure la municipalité et les organismes qu'elle possède ou qu'elle dirige, fournissant un portrait détaillé de la situation financière de celle-ci.

Le résumé souligne des renseignements municipaux clés, notamment une comparaison entre les données des recensements de 2001 et de 2006 afin d'illustrer les changements de population. Les dépenses en services, en tant que pourcentage des dépenses totales et par habitant, ainsi que la composition des immobilisations corporelles, sont également mises en relief.

La partie consacrée aux statistiques financières regroupe les municipalités par type et par taille de la population, afin de faciliter les comparaisons entre municipalités semblables. Une ventilation détaillée des données consolidées concernant les recettes, les dépenses et les services publics, et d'autres données comme l'évaluation foncière, l'immobilisation, et les fonds fiduciaires et fonds de réserve est fournie.

Les municipalités ayant présenté des états financiers consolidés ont indiqué :

- des soldes de fonds de réserve et d'excédent accumulé de 7,1 milliards de dollars;
- des excédents d'exercice d'environ un million de dollars, en moyenne (pour 86 % d'entre elles), à l'exception de Winnipeg;
- des actifs financiers nets de 174,6 millions de dollars, en excédent de leur dette non amortie (1,2 milliard de dollars);
- des frais de la dette publique, exprimés en pourcentage des recettes, de 2,7 %.

Parmi les tendances concernant les dépenses non consolidées des municipalités, notons que :

- 73 % des municipalités (129) dépensent plus de 20 % de leur budget en administration publique locale. Parmi celles-ci, 78 comptent moins de 1 000 habitants.
- La principale dépense des municipalités ayant des populations entre 1 000 et 5 000 habitants est le transport, qui compte pour 43 % du budget, suivie de l'administration publique générale, qui compte pour 21 %.
- La principale dépense des municipalités ayant des populations de plus de 5 000 habitants (à l'exception de Winnipeg) est le transport, qui compte pour 30 % du budget, suivie des services de protection, qui comptent pour 26 %.

Les municipalités ont dépensé plus de 699 millions de dollars dans le cadre de projets d'immobilisations, y compris 408 millions de dollars sur des projets visant les installations d'eau et d'égout, ainsi que les routes, les rues et les ponts. Au 31 décembre 2010, la valeur totale des actifs corporels nets des municipalités était de 6,38 milliards de dollars.

Le rapport *2010 – Information statistique – Municipalités de la province du Manitoba* offre aux municipalités des renseignements utiles pour l'examen des programmes et constitue une référence importante pour les responsables municipaux à la recherche de nouvelles méthodes pour améliorer l'efficacité et l'efficience. Il est également une ressource utile pour ceux qui désirent mieux comprendre les finances des administrations locales au Manitoba.
